## DETAILED ACTION

Applicants' remarks and amendments filed on 2/28/07 were sufficient to overcome the rejections set forth in the office action dated 8/25/06.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is directed toward asymmetric chiral labeled glycerol, however the compounds encompassed by the claims description of the said labeled glycerol include compounds that are not chiral and also compounds that have more than one chiral center. For example: if no deuterium atoms are present the compound is not chiral, on the other hand if one deuterium atom is attached to carbon 1, the compound contains 2 chiral centers. The scope of claim 1 is not definite. Examiner suggests amending the claim language to correct the inconsistencies.

Claims 12 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what structure is encompassed by the claims. For example, in claim 12, the applicant recites (1R, 2R)[1-<sup>13</sup>C, 1,2,3,-<sup>2</sup>H<sub>4</sub>]

Art Unit: 1621

glycerol. According to the name, the above compound has 4 deuterium atoms but only 3 positions for their attachment are specified. It is unclear if the error is in the number of atoms or if the positioning of the forth deuterium has been omitted.

### ***Claim Objections***

Claims 7 and 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Allowable subject matter***

Claims 2, 3, 5, 6, 9, 10, 11, 13, 14, and 15 are allowed. The closest prior art is Pitlik et al. (already of record). Pitlik et al teach a labeled (1,2-<sup>13</sup>C<sub>2</sub>, 1,1-<sup>2</sup>H<sub>2</sub>) glycerol. However the compound of Pitlic et al is prepared as a racemic mixture and no motivation to resolve the isomers is provided.

### ***Conclusion***

Claims 1-3 and 5-16 are pending

Claims 1, 12 and 16 are rejected.

Claims 2, 3, 5, 6, 9, 10, 11, 13, 14, 15 are allowed

Claims 7 and 8 are objected to.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
